

Warsaw, 01.03.2017

Arteta Sp. z o.o.

Al. Księcia J. Poniatowskiego 1,
03-901 Warsaw, Poland

It was very easy and comfortable working with Mobile Reality Sp z o.o. to develop DayUp Scanner mobile and web application. To me, as a non-technical manager, the understanding, expertise and communication of these guys is on a top level. What I especially value about working with them is that they bring many useful ideas and suggestions to the table allowing us to stay focus and deliver products genuinely tailored to the end user, faster than ever. Mobile Reality Sp. z o.o. would be a valuable partner for any company working with them, and I have no hesitation in recommending them highly.

Sincerely,
Bartosz Ponikło
Marketing Director
